

By-law 36-06

A By-Law to provide for the regulation of the discharge of sewage, wastes into the public sewage works and of hauled liquid waste

BY-LAW INDEX

Part 1 DEFINITIONS

- 1.1 Definitions
 - Acute hazardous waste chemical – defined
 - Authorized Representative - defined
 - B.O.D. - defined
 - Town – defined
 - Commercial waste chemical - defined
 - Composite sample - defined
 - Concentration - defined
 - Discharge – defined
 - Fuels - defined
 - Grab sample - defined
 - Hauled Liquid Waste – defined
 - Hauled Liquid Waste Facility – defined
 - Hauled Liquid Waste Hauler – defined
 - Hauled Liquid Waste – Inside Municipal Boundaries – defined
 - Hauled Liquid Waste – Outside Municipal Boundaries – defined
 - Hazardous industrial waste – defined
 - Hazardous waste chemical - defined
 - High Strength Sewage - defined
 - Leachate – defined
 - Municipality - defined
 - Person - defined

pH – defined
Phenolic compounds - defined
Public sewage works - defined
Sanitary sewer - defined
Septage – defined
Sewage – defined
Standard methods - defined
Storm sewer - defined
Storm water - defined
Suspended solids - defined
Waste - defined

Part 2 GENERAL PROVISIONS

- 2.1 Administration - by the Town of Aylmer
- 2.2 Entry - on private property - identification - required
- 2.3 Entry - into dwelling - limitation
- 2.4 Sample - composite - grab - single - sufficient

Part 3 PROHIBITIONS - DISCHARGES - TO SANITARY SEWERS

- 3.1 Connections and Disconnections – permission - conditions
- 3.2 Discharge - other than in sewer – prohibited
- 3.3 Discharge – other than to Hauled Liquid Waste Facility - prohibited
- 3.4 Temperature - greater than 55 degrees Celsius
- 3.5 Fat - oil - grease - origin - animal - vegetable
- 3.6 Oil - grease - origin - non-animal - non-vegetable
- 3.7 pH - range - 6.0 to 10.5
- 3.8 Matter - harmful - to sewage works
- 3.9 Matter - harmful to persons
- 3.10 B.O.D. - exceeding 300 mg/l
- 3.11 Suspended solids - exceeding 350 mg/l
- 3.12 Concentrations - maximums
- 3.13 Discharge - prohibited waste - permission - conditions
- 3.14 Waste system - installation - details - required

Part 4
PROHIBITIONS - DISCHARGES - TO STORM SEWERS

- 4.1 Storm water - discharge - into storm sewer
- 4.2 Temperature - greater than 55 degrees Celsius
- 4.3 Fat - oil - grease - origin - animal - vegetable
- 4.4 Fat - oil - grease - origin - non-animal - non-vegetable
- 4.5 pH - range - 6.0 to 10.5
- 4.6 B.O.D. - 5-day count - exceeding 15 mg/l
- 4.7 Suspended solids - concentrations - exceeding 15 mg/l
- 4.8 Coliform count - exceeding 2,400 per 100 ml
- 4.9 Concentrations - maximum

Part 5
PROHIBITIONS - DISCHARGES
TO PUBLIC SEWAGE WORKS

- 5.1 Chemicals - pesticides - herbicide - other - prohibited
- 5.2 Toxic corrosive - radioactive - flammable - prohibited
- 5.3 Sulphur - matter causing offensive odour – prohibited
- 5.4 Solids - larger than 6.7 mm square - prohibited
- 5.5 Coloured matter - concentration - dilution factor
- 5.6 Storm water - meeting requirements - discharged

Part 6
COMMERCIAL INSTITUTIONS
INDUSTRIAL PREMISES

- 6.1 Grease - sand - dirt - interceptors - screening devices
- 6.2 Screening device - installed - maintained - as required
- 6.3 Manhole - alternative - installed - maintained
- 6.4 Manhole - other - design - construction - maintenance
- 6.5 Manhole - failure to install - maintain - prohibited
- 6.6 Manhole - accessible - at all times
- 6.7 Monitoring devices - reports - required - by Town
- 6.8 Monitoring devices - reports - failure to provide
- 6.9 Default of duty - expense - recovery - by Town
- 6.10 Charge - lien on land - collected as taxes
- 6.11 Measurement
- 6.12 Fees/Charges

**Part 7
ENFORCEMENT**

- 7.1 Fine - for contravention
- 7.2 Fine - for contravention - corporation
- 7.3 Continuation - repetition - prohibited - by order

**Part 8
REPEAL - ENACTMENT**

- 8.1 By-law - previous
- 8.2 Effective date

The Municipal Council of The Corporation of the Town of Aylmer enacts as follows:

**SHORT TITLE
SEWAGE / WASTE DISCHARGE BY-LAW**

**Part 1
DEFINITIONS**

1.1 Definitions

In this by-law:

B.O.D. - defined

"B.O.D." (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in biochemical oxidation of organic and inorganic matter in five (5) days at twenty (20) degrees Celsius, expressed in milligrams per litre.

Town - defined

"Town" shall mean the Corporation of the Town of Aylmer, Council, any person or persons (i.e. Engineer) or employee appointed by the Council who acts at the direction of the Council, in the enforcement of this by-law.

Composite sample - defined

"composite sample" shall mean a sample which is composed of a series of grab samples taken at intervals during the sampling period.

Concentration - defined

"concentration" shall mean the content of any element or compound relative to the total volume in which it is contained.

Discharge - defined

"discharge" includes the acts of failing to prevent escape, emitting, and releasing.

Grab sample - defined

"grab sample" is a portion of the flow being sampled, taken at one particular time and place.

Hauled Liquid Waste – defined

"Hauled liquid waste" includes leachate and/or septage, which is transported by truck and discharged into the Town's sewage system under certain conditions.

Hauled Liquid Waste Facility – defined

"Hauled Liquid Waste Facility means an approved depot which may accept hauled liquid waste transported by truck and discharged into the Town's sewage system under certain conditions.

Hauled Liquid Waste Hauler – defined

“Hauled Liquid Waste Hauler” means an approved person who has the appropriate approvals and permits to the satisfaction of all regulatory bodies and the Town and who may discharge hauled liquid waste transported by truck at a hauled liquid facility.

Hauled Liquid Waste – Inside Municipal Boundaries – defined

“Hauled Liquid Waste – Inside Municipal Boundaries” shall mean hauled liquid waste which is generated from a source within the Town of Aylmer Municipal Boundaries, proof of which must be acceptable to the Town.

Hauled Liquid Waste – Outside Municipal Boundaries – defined

“Hauled Liquid Waste – Outside Municipal Boundaries” shall mean hauled liquid waste which is generated from a source outside the Town of Aylmer Municipal Boundaries.

High Strength Sewage - defined

“High Strength Sewage” means waste which exceeds the limits as set out in this by-law, and includes leachate where leachate is discharged to the sanitary sewage system.

Leachate – defined

“Leachate” means contaminated water that is created in landfills, resulting from rain, melting snow or liquid within garbage that filters through the landfill waste picking up and carrying with it dissolved materials. Where leachate is discharged to the sanitary sewage system, it shall be considered a form of High Strength Sewage. Where leachate is transported to and discharged into a Hauled Liquid Waste Facility, it shall be considered as Hauled Liquid Waste.

Person - defined

"person" includes an individual, association, partnership, corporation, municipality, provincial or federal agency, or an agent or employee thereof.

pH - defined

"pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per litre of solution.

Phenolic compounds - defined

"phenolic compounds" shall mean any hydroxyl derivative of benzene, or its condensed nuclei.

Public sewage works - defined

"public sewage works" shall mean all sewers, sewage systems, sewage pumping stations, sewage lagoons, sewage treatment plants and other works for the collection, acceptance, transmission, treatment and disposal of liquid-borne wastes and storm water.

Sanitary sewer - defined

"sanitary sewer" shall mean that part of the public sewage works for the transmission of liquid-borne wastes.

Septage – defined

“septage” includes as all matter, liquid and solid, that is pumped out of septic tanks and holding tanks. Such tanks may be used in residential, commercial or industrial properties which are not connected to the Town’s sewage system. Where Septage is transported by truck for disposal at a Hauled Liquid Waste Facility, it shall be considered Hauled Liquid Waste.

Sewage - defined

"sewage" shall mean any liquid waste containing animal, vegetable or mineral matter in solution or in suspension, but does not include storm water or uncontaminated water.

Standard methods - defined

"standard methods" shall mean the use of validated test methods and procedures that are based on a recognized international, national, or regional standard methods by reputable technical organizations or by equipment manufacturer’s. The latest edition of a test method will be used by the Town or by any agent testing on behalf of the Town at the time of testing.

Storm sewer - defined

"storm sewer" shall mean a sewer, drain, open channel, ditch or depression used for the purpose of which is to carry storm water.

Storm water - defined

"storm water" shall mean surface and rain water, melted snow and ice, swimming pool drain water, uncontaminated water and groundwater.

Suspended solids - defined

"suspended solids" shall mean undissolved or insoluble total suspended matter which is borne by a liquid or contained in waste.

Waste - defined

"waste" includes all manner of liquids and liquid-borne matter, but does not include storm water entering a sewer.

Part 2 GENERAL PROVISIONS

2.1 Administration - by Town

This by-law shall be administered by the Town of Aylmer.

2.2 Entry - on private property - identification - required

For the purpose of the administration of this by-law, any consultant or employee engaged by The Corporation of the Town of Aylmer and directed by the Town, or any person appointed by the Council to carry out inspections in respect of discharges prohibited or regulated by this by-law and directed by the Town may, upon production of identification enter in or upon any land or premises, except land or premises being used as a dwelling unit, at any time without a warrant and carry out such inspections and take such tests and samples as are necessary for the purposes of the inspections.

2.3 Entry - into dwelling - limitation

Except under the authority of a search warrant issued under section 158 of the *Provincial Offences Act, R.S.O. 1990, c. P.33*, as amended, the persons mentioned in section 2.2 of this by-law shall not enter any place or room actually used as a dwelling without requesting and obtaining the consent of the occupier, first having informed the occupier that the right of entry may be refused and entry made only under the authority of a search warrant.

2.4 Sample - composite - grab - single - sufficient

Where a sample is required for the purpose of determining the characteristics or contents of the waste or storm water to which reference is made in this by-law:

- (a) one sample alone is sufficient and, without limiting the generality of the foregoing, the sample may be a grab sample or a composite sample, may contain additives for its preservation and may be collected manually or by using an automatic sampling device;
- (b) except as otherwise specifically provided in this by-law, all analytical tests, measurements, analyses and examinations of sewage, uncontaminated water and storm water, shall be carried out in accordance with standard methods;
- (c) for each one of the metals whose concentration is limited under the regulations contained in this by-law, the analysis shall be for the quantity of total metal, which includes all metal both dissolved and particulate.

Part 3 PROHIBITIONS - DISCHARGES - TO SANITARY SEWERS

3.1 Connections and Disconnections

(a) No person shall uncover, make any connections with or opening into, use, alter or disturb any sanitary sewer or appurtenance thereof, without first obtaining permission in writing from the Town of Aylmer.

(b) No person shall disconnect, except for the purpose of repair, any sanitary sewer without first obtaining permission, in writing, from the Town of Aylmer.

3.2 Discharge - other than in sewer - prohibited

Unless permitted to do otherwise under this by-law, no person shall discharge or deposit or cause or permit the discharge or deposit into or in land drainage works, private branch drains or connections to any sanitary sewer or combined sewer, fail to ensure that waste is discharged only into a sanitary sewer.

3.3 Discharge - other than to Hauled Liquid Waste Facility - prohibited

Unless permitted to do otherwise under this by-law, no person shall fail to ensure that Hauled Liquid Waste is discharged only to a designated Hauled Liquid Waste Facility.

3.4 Temperature - greater than 55 degrees Celsius

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which is at a temperature in excess of fifty-five (55) degrees Celsius, or one hundred thirty-one (131) degrees Fahrenheit.

3.5 Fat - oil - grease - origin - animal - vegetable

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which contains more than 100 milligrams per litre of fat, oil, grease or other matter of animal or vegetable origin.

3.6 Oil - grease - origin - non-animal - non-vegetable

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which contains more than 15 milligrams per litre of oil, grease, tar, or other matter of other than animal or vegetable origin.

3.7 pH - range - 6.0 to 10.5

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which has a pH lower than 6.0 or greater than 10.5 or which due to its nature or content, becomes less than 6.0 or greater than 10.5 during transmission to a sewage treatment plant.

3.8 Matter - harmful - to sewage works

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which may be or may become harmful to the public sewage works.

3.9 Matter - harmful - to persons

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which may be or may become harmful to persons.

3.10 B.O.D. - exceeding 300 mg/l

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which has a five day B.O.D. exceeding 300 milligrams per litre.

3.11 Suspended solids - exceeding 350 mg/l

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in sanitary sewers, waste which contains more than 350 milligrams per litre of suspended solids.

3.12 Concentrations - maximums

No person shall discharge or deposit or cause or permit to be discharged or deposited, sewage, waste containing any of the following in excess of the indicated concentrations:

1500 milligrams/litre

chlorides, expressed as Cl, in excess of 1,500.0 milligrams per litre;

sulphates, expressed as SO₄, in excess of 1,500.0 milligrams per litre;

50 milligrams/litre

aluminum, expressed as Al, in excess of 50.0 milligrams per litre;

ammonia, expressed as N, in excess of 50.0 milligrams per litre;

iron, expressed as Fe, in excess of 50.0 milligrams per litre;

10 milligrams/litre

fluoride, expressed as F, in excess of 10.0 milligrams per litre;
phosphorus, expressed as P, in excess of 10.0 milligrams per litre;

5 milligrams/litre

antimony, expressed as Sb, in excess of 5.0 milligrams per litre;
barium, expressed as Ba, in excess of 5.0 milligrams per litre;
beryllium, expressed as Be, in excess of 5.0 milligrams per litre;
bismuth, expressed as Bi, in excess of 5.0 milligrams per litre;
chromium, expressed as Cr, in excess of 5.0 milligrams per litre;
cobalt, expressed as Co, in excess of 5.0 milligrams per litre;
lead, expressed as Pb, in excess of 5.0 milligrams per litre;
manganese, expressed as Mn, in excess of 5.0 milligrams per litre;
molybdenum, expressed as Mo, in excess of 5.0 milligrams per litre;
selenium, expressed as Se, in excess of 5.0 milligrams per litre;
tin, expressed as Sn, in excess of 5.0 milligrams per litre;
titanium, expressed as Ti, in excess of 5.0 milligrams per litre;
vanadium, expressed as V, in excess of 5.0 milligrams per litre;

2 milligrams/litre

copper, expressed as Cu, in excess of 2.0 milligrams per litre;
nickel, expressed as Ni, in excess of 2.0 milligrams per litre;
silver, expressed as Ag, in excess of 2.0 milligrams per litre;
sulphides, expressed as S, in excess of 2.0 milligrams per litre;
zinc, expressed as Zn, in excess of 2.0 milligrams per litre.

1 milligrams/litre

arsenic, expressed as As, in excess of 1.0 milligram per litre;
cadmium, expressed as Cd, in excess of 1.0 milligrams per litre;
cyanide, expressed as CN, in excess of 1.0 milligrams per litre;
phenolic compounds, in excess of 1.0 milligrams per litre;

0.1 milligrams/litre

mercury, expressed as Hg, in excess of 0.1 milligrams per litre;

Waste containing any of the following in any amount;

- Acute Hazardous Waste Chemicals
- Fuels
- Hazardous Industrial Wastes
- Hazardous Waste Chemicals
- Ignitable Wastes
- Pathological Wastes
- PCB Wastes
- Pesticides
- Reactive Wastes
- Severely Toxic Materials
- Waste Radioactive Materials

3.13 Discharge - prohibited waste - permission - conditions

(1) The Town may permit the discharge of waste which has a five-day B.O.D. exceeding 300 milligrams per litre and/or contains more than 350 milligrams per litre of suspended solids and/or contains more than 50 milligrams per litre of ammonia and/or contains more than 10 milligrams per litre of phosphorous, into a sanitary sewer, notwithstanding any other section of this by-law:

- (a) if the land from which the wastes are to be discharged is equipped with the following inspection facilities and apparatus, to the satisfaction of the Town :
 - (i) a flow measuring, sampling and recording device within a compartment which may be kept locked by the Town and to which no other person shall have access, at a point between the public sewage works and the outlet of all plumbing systems serving the land; and
 - (ii) an observation manhole, having a diameter of not less than 1.2 metres located so as to permit inspection of all wastes being discharged into the public sewage works from the land;
- (b) and if the public sewage works, in the opinion of the Town, is capable of accepting the waste; and
- (c) upon payment of the High Strength Sewage Service Charge subject to the conditions as set out in Schedule "B" of the Municipal Fees and Rental Rates By-Law.

(2) The Town may permit the discharge of Hauled Liquid Waste at a Hauled Liquid Waste Depot:

- (a) if the Hauled Liquid Waste Hauler has all the necessary permits and approvals necessary to collect and transport Hauled Liquid Waste, to the satisfaction of all regulatory bodies and the Town; and
- (b) if the Hauled Liquid Waste Hauler meets the necessary credit requirements, in the opinion of the Town; and
- (c) upon payment of the Hauled Liquid Waste Disposal Charge subject to the conditions as set out in Schedule "B" of the Municipal Fees and Rental Rates By-Law.

3.14 Waste system - installation - details - required

Details, plans, specifications and other pertinent information relating to the construction and operation of any system:

- (a) which is used to intercept or control the discharge of wastes into the public sewage works; or
- (b) which is used to provide treatment of wastes,

shall be furnished to the Town prior to approval and installation of the system or at the request of the Town.

No construction of such a system shall be commenced until the said approval is obtained in writing.

Part 4
PROHIBITIONS - DISCHARGES - TO STORM SEWERS

4.1 Storm water - discharge - into storm sewer

Unless permitted to do otherwise under this by-law, no person shall fail to ensure that storm water is discharged into a storm sewer.

4.2 Temperature - greater than 55 degrees Celsius

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which is at a temperature in excess of fifty-five (55) degrees Celsius, or one hundred thirty-one (131) degrees Fahrenheit.

4.3 Fat - oil - grease - origin - animal - vegetable

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which contains more than 15 milligrams per litre of fat, oil, grease, or other matter of animal or vegetable origin.

4.4 Fat - oil - grease - origin - non-animal - non-vegetable

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which contains more than 15 milligrams per litre of fat, oil, grease, or other matter of other than animal or vegetable origin.

4.5 pH - range - 6.0 to 10.5

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which has a pH lower than 6.0 or greater than 10.5.

4.6 B.O.D. - 5-day count - exceeding 15 mg/l

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which contains matter which raises the 5 day B.O.D. to greater than 15 milligrams per litre.

4.7 Suspended solids - concentrations - exceeding 15 mg/l

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which contains suspended solids at a concentration in excess of 15 milligrams per litre.

4.8 Concentrations - maximum

No person shall discharge or deposit or cause or permit to be discharged or deposited, into or in a storm sewer, storm water which contains a concentration of:

- (a) aluminum, expressed as Al, in excess of 1.0 milligrams per litre;
- (b) arsenic, expressed as As, in excess of 0.2 milligrams per litre;
- (c) barium, expressed as Ba, in excess of 0.1 milligrams per litre;
- (d) beryllium, expressed as Be, in excess of 1.0 milligrams per litre;
- (e) cadmium, expressed as Cd, in excess of 0.008 milligrams per litre;
- (f) chlorides, expressed as Cl, in excess of 1,500 milligrams per litre;
- (g) chlorine, expressed as Cl₂, in excess of 1.0 milligrams per litre;
- (h) chromium, expressed as Cr, in excess of 0.2 milligrams per litre;
- (i) copper, expressed as Cu, in excess of 0.04 milligrams per litre;
- (j) cyanide, expressed as CN, in excess of 0.1 milligrams per litre;
- (k) fluoride, expressed as F, in excess of 2.0 milligrams per litre;
- (l) iron, expressed as Fe, in excess of 1.0 milligrams per litre;
- (m) lead, expressed as Pb, in excess of 0.12 milligrams per litre;
- (n) manganese, expressed as Mn, in excess of 1.0 milligrams per litre;

- (o) mercury, expressed as Hg, in excess of 0.001 milligrams per litre;
- (p) nickel, expressed as Ni, in excess of 0.08 milligrams per litre;
- (q) phenolic compounds in excess of 0.02 milligrams per litre;
- (r) phosphorus, expressed as P, in excess of 0.4 milligrams per litre;
- (s) selenium, expressed as Se, in excess of 0.2 milligrams per litre;
- (t) silver, expressed as Ag, in excess of 0.12 milligrams per litre;
- (u) sulphates, expressed as SO₄, in excess of 1,500 milligrams per litre;
- (v) tin, expressed as Sn, in excess of 1.0 milligrams per litre;
- (w) zinc, expressed as Zn, in excess of 0.05 milligrams per litre.

**Part 5
PROHIBITIONS - DISCHARGES
TO PUBLIC SEWAGE WORKS**

5.1 Chemicals - pesticides - other - prohibited

No person shall discharge or deposit or cause or permit to be discharged or deposited, matter of a kind listed below into a public sewage works unless otherwise specified within this By-Law.:

- (a) pesticide;
- (b) herbicide;
- (c) fuel oil;
- (d) gasoline;
- (e) benzene;
- (f) Naphtha;
- (g) acetone;
- (h) ammonia;
- (i) carbon disulphide;
- (j) chlorine;
- (k) bromine;
- (l) trichloroethylene or perchloroethylene;
- (m) sulphur dioxide;
- (n) pyridine;
- (o) formaldehyde.

5.2 Toxic corrosive - radioactive - flammable - prohibited

No person shall discharge or deposit or cause or permit to be discharged or deposited, into a public sewage works, matter which has toxic, corrosive, radioactive, flammable or noxious properties.

5.3 Sulphur - matter causing offensive odour - prohibited

No person shall discharge or deposit or cause or permit to be discharged or deposited, into a public sewage works, matter that may cause an offensive odour to emanate from the public sewage works, and without limiting the generality of the foregoing, the discharge of any concentration of hydrogen sulphide, carbon disulphide, reduced sulphur compounds, amines or ammonia.

5.4 Solids - larger than 6.7 mm square - prohibited

No person shall discharge or deposit or cause or permit to be discharged or deposited, into a public sewage works, waste or storm water containing any matter which will not pass through a screen having openings not larger than 6.7 millimetres square.

5.5 Coloured matter - concentration - dilution factor

No person shall discharge or deposit or cause or permit to be discharged or deposited, into a public sewage works, waste or storm water containing coloured matter, which would require a dilution in excess of four (4) parts of distilled water to one (1) part of such waste or storm water to dissipate the colour.

5.6 Storm water - meeting requirements - discharged

Waste which meets the requirements of this by-law concerning storm water may be deemed by the Town to be storm water and shall be discharged into a storm sewer.

**Part 6
COMMERCIAL INSTITUTIONS
INDUSTRIAL PREMISES**

6.1 Grease - sand - dirt - interceptors - screening devices

The Town may require the owner or occupant of commercial, institutional or industrial premises with one or more connections to the public sewage works to install and maintain in good repair in each connection a suitable device to prevent the entry of grease, oil, sand and dirt into the public sewage works.

6.2 Screening device - installed - maintained - as required

No person shall fail to install or maintain a suitable device to prevent the entry of grease, oil, sand and dirt into the public sewage upon being required to do so by the Town.

6.3 Manhole - alternative - installed - maintained

The Town may require the owner or occupant of commercial, institutional or industrial premises with one or more connections to the public sewage works to install and maintain in good repair in each connection a suitable manhole having a diameter of not less than 1.2 metres to allow observation, sampling and measurement of the flow therein, provided that where installation of a manhole is not possible, an alternative device or facility may be substituted with the approval of the Town.

6.4 Manhole - other - design - construction - maintenance

Every manhole, device or facility installed as required by this by-law shall be designed and constructed in accordance with good engineering practice to the satisfaction of the Town and shall be constructed and maintained on the land of the owner or occupant of the premises, at the owner's or occupant's expense.

6.5 Manhole - failure to install - maintain - prohibited

No person shall fail to install or maintain in good repair a manhole, device or facility that meets the standards of this by-law upon being required to do so by the Town.

6.6 Manhole - accessible - at all times

No person required to install a manhole, device or facility shall fail to ensure such manhole, device or facility is accessible at all times for the purposes of observing, sampling and measuring the flow of sewage therein.

6.7 Monitoring devices - reports - required - by Town

The owner or occupant of commercial, institutional or industrial premises shall, at the discretion of the Town, install devices to monitor discharges to the satisfaction of the Town, and if required to do such installation, shall submit regular reports regarding such discharges to the Town.

6.8 Monitoring devices - reports - failure to provide

No person shall fail to install a device to monitor discharges or fail to submit regular reports regarding such discharges when required to do so by the Town.

6.9 Default of duty - expense - recovery - by Town

Where the owner or occupant of commercial, institutional or industrial premises does not install or maintain each manhole device or facility required under this by-law, such installation or maintenance may be done at the direction of the Town at the expense of the owner or occupant

and the Municipality may recover the costs incurred in doing such work by action or by adding the costs to the tax roll and collecting them in the same manner as municipal taxes.

6.10 Charge - lien on land - collected as taxes

- (1) Any charge based upon this by-law or the fees as set out in Schedule "B" of the Municipal Fees and Rental Rates By-Law may be imposed upon any owner or occupant of land has priority lien status and may be added to the tax roll against the property in respect of which the sewer service was supplied.
- (2) If any charge or any part thereof remains unpaid after its due date the Director of Finance, upon notice to the owner or occupant of the amount due, the person by whom it is due, shall add the same to the tax roll.
- (3) If an amount is added to the tax roll in respect of a property under subsections (1) or (2), that amount, including interest:
 - (a) may be collected in the same manner as taxes on the property;
 - (b) may be recovered with costs as a debt due to the municipality from the assessed owner of the property at the time the charge was added to the tax roll and from any subsequent owner of the property or any part of it;
 - (c) is a special lien on the property in the same manner as taxes under subsection 349(3) of the *Municipal Act, 2001*; and
 - (d) may be included in the cancellation price under Part XI of the *Municipal Act, 2001* in the same manner as are taxes on the property.

6.11 Measurement

(1) High Strength Waste

- (a) The volume of high strength waste shall be as measured by the flow measuring device located upon the land served or as estimated by the Town should such device malfunction or fail to provide complete data.
- (b) The concentration of ammonia, B.O.D., suspended solids and phosphorous in excess of the limits prescribed in this by-law shall be as calculated by the Town on the basis of no less than two samples per year of the waste being discharged.

(2) Hauled Liquid Waste

The volume of Hauled Liquid Waste shall be based on the capacity of the vehicle discharging this waste. Where there is not a clear sight glass in order to view the level of the waste stored in the vehicle, the volume may be based on an estimated capacity as determined by Town staff.

6.12 Fees/Charges

Fees/Charges for High Strength Waste and for Hauled Liquid Waste shall be established in Schedule "B" of the Municipal Fees and Rental Rates By-Law.

Part 7 ENFORCEMENT

7.1 Fine - for contravention

Any person other than a corporation who contravenes any section of this by-law is guilty of an offence and upon conviction is liable for a fine of not more than \$10,000.00 for a first offence and not more than \$25,000.00 for any subsequent offence under the by-law.

7.2 Fine - for contravention - corporation

Notwithstanding any other provision of this by-law, a corporation upon conviction of a contravention of this by-law is liable for a fine of not more than \$50,000.00 for a first offence and not more than \$100,000.00 for any subsequent offences.

7.3 Continuation - repetition - prohibited - by order

The court in which the conviction has been entered, and any court of competent jurisdiction thereafter, may make an order prohibiting the continuation or repetition of the offence by the person convicted, and such order shall be in addition to any other penalty imposed on the person convicted.

**Part 8
REPEAL - ENACTMENT**

8.1 By-law - previous

By-law No. 4-68 and all amendments thereto are hereby repealed.

8.2 Short Title

The short title of this by-law shall be the Sewage / Waste Discharge By-law.

8.3 Effective date

This By-Law comes into force and effect upon final passing thereof.

READ A First and Second time this 28th day of August, 2006.

MAYOR

CLERK

READ A Third time and finally passed this 11th day of September, 2006.
