

Road Milling and Resurfacing

Elgin County is proceeding with milling and resurfacing of the County roads within the Town of Aylmer to the limits shown on the map above. Roads will remain open, however, the milling and paving operations will require temporary lane reductions and parking restrictions as the work progresses along the County roads. Your patience is appreciated throughout this road improvement project.

For project information please contact

Peter Dutchak, C.E.T.
Deputy Director Engineering Services
Elgin County
Phone: 519-631-1460 Ext. 124
